

KAGO_framework.view.Program
View.ProgramView

```
graph LR; A[KAGO_framework.view.ProgramView.ProgramView] --> B[KAGO_framework.control.ViewController.draw]; A --> C[KAGO_framework.control.ViewController.register];
```

The diagram illustrates a call from the `KAGO_framework.view.ProgramView.ProgramView` class to two methods in the `KAGO_framework.control.ViewController` class. The source class is highlighted in gray, and the target methods are in white boxes. Blue arrows indicate the direction of the calls.
